

ICE-Trade Lasting Pincer

The ICE-Trade lasting pincer is the tool for pulling rubber from the textile plies.

The ICE-Trade pincer is made of drop forced steel with a box joint and has carefully milled teeth.

The teeth give an optimum grip with the rubber, which prevents sliding, a safety feature !

The handles are black enameled, the head polished.

Length 216 mm.

Jaw width 8 mm.

Weight 369 gr.
