ICE-Trade ® Weilan Protector

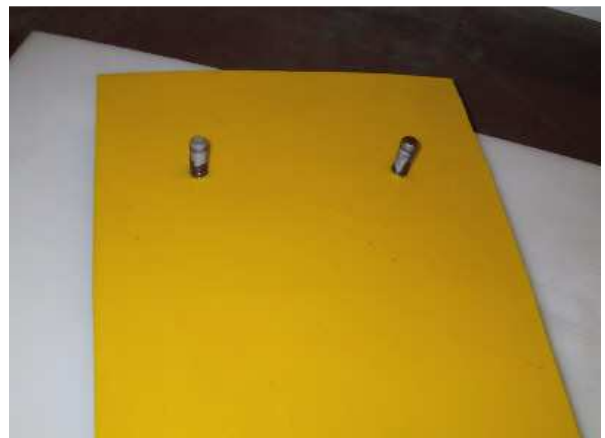

Specially designed, to protect the chutes against wear.

Made from high quality PU, the Protector is installed in the chute. It will be filled with the product conveyed and so protect the chute for wear. The best protection for wear is still the same material as conveyed.

Dimensions: 660 x 280 x 60 mm.

Easy installation by only 2 bolts / Protector plate. No high costs for installation of rubber or other linings and downtime. 10 minutes to replace.
